

Seasonable Xmas Gifts

For Her Wedding Gift

WHAT could give her greater pleasure than a beautiful Belber wardrobe trunk. There could be no gift more acceptable. It is a keepsake worth the keeping—something to be used and admired for practically a lifetime.

In its convenient drawers there is ample room for linen and lingerie, while a roomy wardrobe and its splendid hangers provide a safe, neat place for gowns and other things.

Number 867 is especially handsome. It is made of the best 3-ply veneer, exquisitely covered with Du Pont Fabrikoid, Craftsman Quality—and bound with heavy gauge fibre. The trimmings are of heavy steel, brass plated. One turn of the solid brass snap lock and the Belber boltless interlocker securely fastens the trunk in three places.

Come in and see our complete line of Belber trunks, bags and suitcases. We have many pleasing styles.

Why do Some People Always Wake up Tired

LOTS of folks sleep all night. But they don't rest. They sleep too "light." Or they dream all night and get up in the morning almost as tired as when they went to bed.

Nobody can build up vitality this way. Many don't get the right kind of sleep because of their beds. You can't get real sound sleep unless your bed invites every nerve and muscle to relax. Even the least bit of noise will keep the nerves on edge.

THE Simmons Metal Bed is noiseless. It locks firm at the corners. The corner locks are made of pressed steel—have much longer bearing surfaces than the average—fit true and snug—not a creak, rattle, or feeling of unsteadiness.

It is perfectly rigid—moves like one solid piece.

The Simmons Pressed Steel Corner Locks are protected by basic patents, are exclusive with Simmons.

And these patented corner locks have made possible the Three-piece Bed—the new Simmons idea—the spring forming a single unit with the side rails.

MANY folks can't sleep even in the best bed if they are disturbed by the restlessness of another sleeper.

The Simmons Company makes a specialty of Twin Beds—where one sleeper doesn't disturb the other or draw on the vitality—and you don't "catch" sore throats, coughs or colds.

Exquisite designs in brass, or enamel in colors and delicate "wood effects"—prices no higher than for ordinary beds.

Come in and let us show you our complete line of these inimitable beds.

Young People
love to play the

AEOLIAN-VOCALION

THEY can actually develop their natural "ear for music" by playing this wonderful phonograph. Its exclusive expression control, the Graduola, permits them to vary the volume and accents as they please.

The tone of the Vocalion is so clear, so rich, so true to life that both children and grown-ups the country over, have named it "The Ideal Phonograph".
